INSTRUCTIONS

1. Watch the video at Comicazes.com or...

2. **Deal each player a Wild, Snail Storm, and one of each Weapon Card (orange backs). Shuffle them and place them face down in front of you. Shuffle and deal all character cards face down in a second stack (purple backs).**

3. Set an auto-restart timer depending on how fast you want play to move, e.g., 10, 15, or 20 seconds at comicazes.com/timer/.

4. At the start of each 10 second interval players reveal the top weapon card and then begin drawing one character card at a time.

5. As you draw characters that match the corresponding face up weapon, those cards are quickly passed to the left. There is no limit to the number of character cards you can hold in your hand. If your face up weapon card is the:
- Wild Card - choose a single character card to pass for that 10 second interval.
- Snail Storm - you cannot draw or pass any cards, but you can organize the cards in your hand.
